S2-P8H61E

Build Your Own Media Center

Design

Classic design

With elegant lightweight design, S2 can be placed vertically or horizontally to accommodate any environments. Moreover, with theater-like HD 8 channel audio, it allows better entertaining enjoyment with high quality sound.

Easy Assembly- Remove 6 screws only for installation

A user-friendly chassis design makes putting together your own system a walk in the park. Push the tool-less clips to install or remove hard disks and optical drives. The entire system is modularized to provide a convenient solution for system building, upgrade and maintenance.

No. 1 Motherboard-Mini ITX H61

Award-winning and best-selling ASUS motherboards offer seamless compatibility with the widest range of components. S2-P8H61E supports Core™ i3/i5/i7 (Maximum 65W) for robust computing and efficient multitask operation.

Standard PC Component

Followed by the intelligent "Easy Assemble" system design, S2 can be easily configured by the desktop PC components. It gives users the freedom to build a SFF PC in seconds. All the necessary components can be found in the markets which tremendously reduces the troubles of assembling or upgrading.

Extension Flexibility

With PCIE x16 expansion slot, make S2-P8H61E to be used in a variety of scenario. Perfect for PCIe x16 add-on cards such as TCPIP accelerators or multi-port network cards for network appliances, sound cards for high-end audio applications, comport cards, video cards for digital signage, imaging, or multi-display financial applications.
